

# **FIRE POLICY**

## **AS OF JULY 2008**

Due to the increasing dry conditions of our camp properties the Great Salt Lake Council Risk management Committee has issued the following fire ban:

**No open flames** on any camp property except camp Steiner. This includes charcoal briquettes (propane and gas cooking stoves are approved).

This policy will go in effect immediately in Millcreek Canyon, and July 7<sup>th</sup> in all other camp properties owned by the Great Salt Lake Council...

Camp directors may ban open fires **sooner** based on their camp conditions.

Please follow the "Guide to Safe Scouting" use of propane and gas cooking stoves.
